The point(s) at which fish and fish products may enter a chain of custody:

The limit of identification of landings is the landing of brown shrimp at authorised sievage stations by client group vessels where appropriate recording and monitoring of landings may take place. The list of authorised ports can be found on the MSC website.

To be eligible to carry the MSC logo, product from the certified fishery must enter into separate Chain of Custody certifications at landing unless the shrimp are sold while at sea thereby covered by the purchasers' Chain of Custody.

The parties, or categories of parties, that are entitled to use this certificate to enter fish from the certified fishery into certified chains of custody:

All vessels within the client group are covered by this certificate.

All North Sea Brown Shrimp vessels out with the client group are eligible to be covered by the certificate under the following conditions:

- 1) The vessel is or becomes a member of a PO that takes part in the Brown Shrimp Management Plan (and the equitable sharing of costs therein, including the certification process), and
- 2) The vessel abides by the rules in the Brown Shrimp Management Plan
